

INSTALLATION INSTRUCTION

SPLASH SHIELD FOR ED200/250 FLAVOR BLAST

Instructions to add front splash shield for ED 200/250 Flavor Blast.

1. Locate splash shield - see Figure 1.

FIGURE 1. Splash Shield

2. Locate the 4th cross support from front of cup rest and position 'hooks' from splash shield as shown – see Figure 2.

FIGURE 2. Locate on Cup Rest

3. Splash shield should snap onto cup rest as shown.
4. Secure shield to cup rest with black wire cable ties in appropriate area as noted by arrows– see Figure 3.

NOTE: White background inside drip tray on Figures 2 and 3 inserted for clarity.
