

Clamshell Grill NCG8, NCG9, NCG14

Prince Castle's Clamshell grill has two heated platens that consistently cook a variety of products from top and bottom. Each platen's temperature is independently regulated/maintained by a solid state controller and zone probe monitoring.

With single-channel electronic, programmable timers, the Prince Castle Clamshell Grill incorporates an audible alarm to supervise and remind operators to check or remove products.

The NCG9 Clamshell Grill has a cool exterior base surface. Platen temperature set points can be pre-programmed specific to customer's requirements, with built-in set point adjustment protection. Removing product build-up is simple with removable catch / drip tray

Product Features

- Top and bottom independent temperature control system
- Various material selection, grooved, smooth or combination smooth bottom/grooved top cooking surfaces
- Heavy-duty spring hinge system tested to millions of cycles for a lifetime of durability
- Easy to change voltage and watts to suit customer needs
- Dual four channel electronic, programmable timers to track product grill time
- Easy to change voltage and watts to suit customer needs
- Easy to maintain and clean
- One-year parts and labor warranty
