

**DHB2PT/3PT SERIES DEDICATED HOLDING BIN**

The Prince Castle Dedicated Holding Bins (DHBs) provide the "work-in-process" capacity required for large foodservice while performing at peak energy efficiency. With stainless steel constructed exterior and cavity walls, the DHBs feature a digital control system for precise heater temperature control. The 2PT and 3PT series feature two and three holding cavities respectively, each accommodating a variety of food pans for fried and non-fried food items.

Adjustable top and bottom heaters that are controlled independently offers maximum flexibility in setting the precise food holding temperatures.

Exclusive Reli-A-Temp© infrared heater technology holds food temperatures more consistent within the designated holding time than other types of heating systems.

This exclusive heater design spreads the heat evenly over the food holding area, eliminating edge drop off. Food is kept at the desired serving temperature and not over cooked.

The Prince Castle DHB is backed by a one year parts and labor warranty.

**STANDARD FEATURES:**

- Independently controlled top and bottom heating per cavity.
- Adjustable heater temperature for each heater zone: Top and Bottom heater temperature range: 150°F to 260°F (65°C to 127°C) .
- Heater zones can be powered off independently.
- ON/off main power switch.
- Each cavity designed to accommodate fried and non-fried items with accessories.
- Pass through design enables access to food from both sides.
- Unique pan lid system allows for perfect holding of foods, including fried, grilled food items and more.

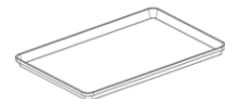

**PANS FOR THE BIN (NOT PROVIDED) :**

1/3 2.5" food pan

1/1 2.5" GN food pan

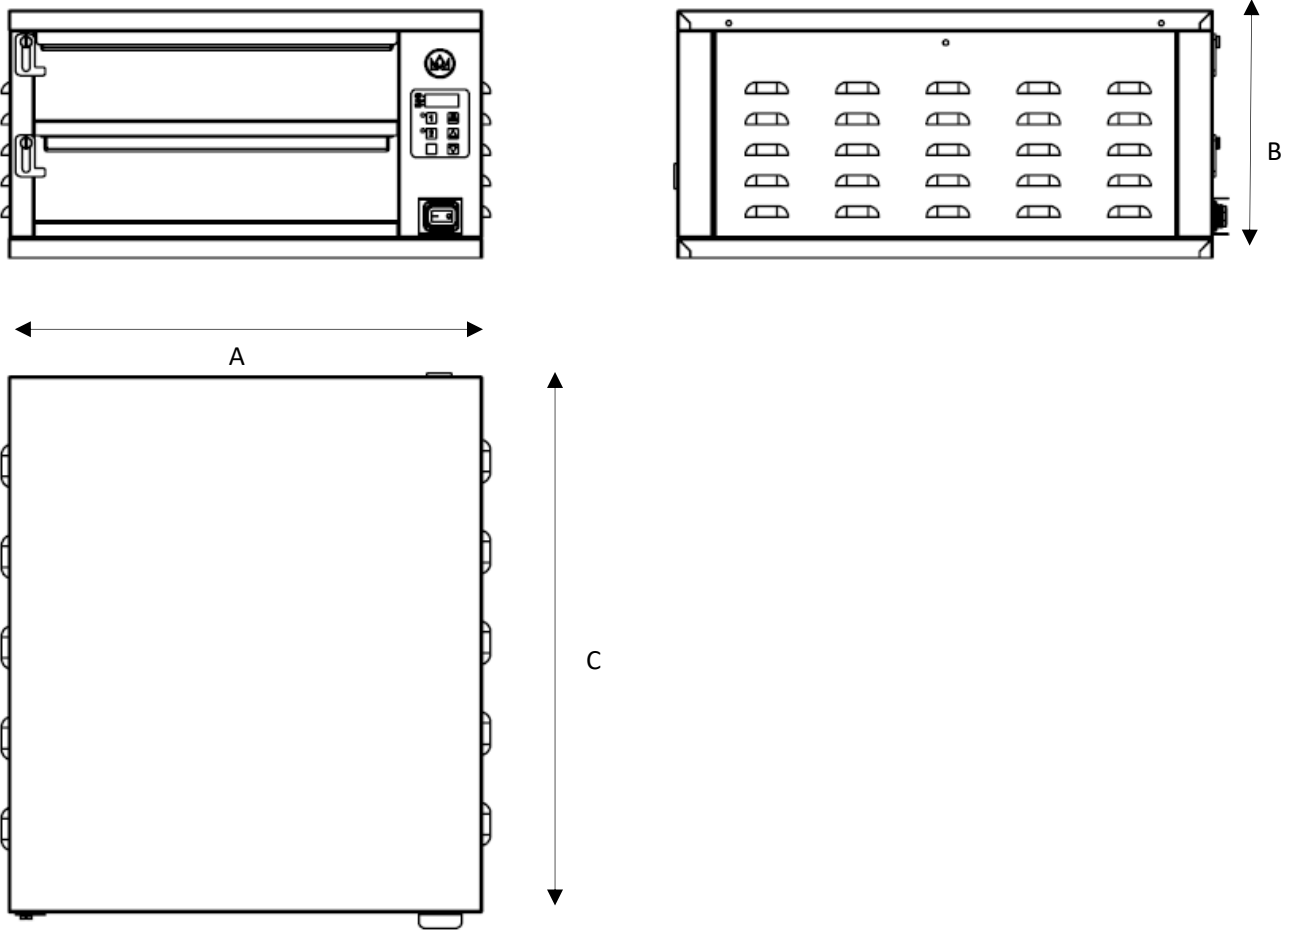

1/2 Al bakery pan
