

Tomato Slicer Quick Start Guide

A. ASSEMBLY & CARTRIDGE REPLACEMENT

1.

Secure stabilizer to front of base of slicer assembly.

Attach slice catcher to rear of slicer assembly.

2.

Fully insert blade cartridge into cartridge slot until it locks in place.

B. ALIGNMENT CHECK

3.

Check alignment of blade cartridge.

Be sure blades do not collide with sliding tray.

C. USAGE

4.

Do not use hard, unripe tomatoes.

Use only soft ripe tomatoes.

5.

Do not use onions.

Do not use potatoes.

6.

Remove tomato core with coring tool.

7.

Push tomato through blade cartridge *quickly*.
